Subject: Vermiculite Products site in Houston, Texas

Dear Ms. Brown:

I am sending this message to confirm our recent exchange of voice mail messages regarding the letter dated June 2, 2014 that was sent by Carl Edlund, the Director of the EPA Region 6 Superfund program, to Mark Nini, President of Greer Capital Corporation. This letter arrived when Mr. Nini was on vacation and thus the 10 day time period for an oral response (referenced on page 2 of the letter) could not be met. As I indicated in my voice mail message, sent last week after Mr. Nini returned to his office, Greer Capital Corporation is now seeking the information requested in the letter and its attachments. A response will be supplied within 30 days. Regarding the request to enter into negotiations regarding a cleanup and/or reimbursement of EPA expenses, Greer Capital Corporation does not have any information regarding what EPA has done at this site or how much it has spent or whether any contamination exists. As indicated in my voice mail message, we respectfully request that you provide information regarding what has been done at this site, including the results of any soil sampling performed by EPA on Greer Capital's property and the Cityside Homes property, so that we may better understand the situation.

Thanks for your cooperation, and please let me know if you have any questions.
